# OTHER PACKAGES

## NATIONAL RURAL EMPLOYMENT GUARANTEE ACT OBJECTIVE:

GOI passed the National Rural Employment Guarantee Act 2005 which gives legal guarantee of 100 days of wage employment in a financial year to adult members of a rural household. The online monitoring of NREGA is a web-based application for monitoring, bringing in transparency, better management and decision making. In Madhya Pradesh, there are 18 districts where the act is implemented, in which more than 36 lacs families have been registered and issued the job cards. The application is hosted onto the web-site <http://nrega.nic.in> for on-line usage while the off-line version has been used in the blocks due to non-availability of connectivity in the blocks.

### SALIENT FEATURES:

- ❑ Information on base-line data of BPL survey
- ❑ On-line updation of data on the web-site
- ❑ Various on-line reports for citizens/government
- ❑ Facilitates data uploading on Delhi server directly

### IMPACT:

- ❑ Provides on-line reports to citizen/government
- ❑ Maintains the transparency in the government
- ❑ On-line monitoring for state/central government
- ❑ Helps in corrective action by the government

## RURALSOFT PACKAGE

### OBJECTIVE:

RuralSoft is a monitoring system based on sanctioned infra-structure works under various poverty alleviation schemes of Rural Development Department which allows data entry and report generation. These progress reports focus on the development of rural works which are executed by various governmental agencies of the department. It also helps in generating various reports for the district administration and state government. The Zila Panchayat Office is responsible for authenticity of data and the data entry. The system is a G2G and G2C application.

### SALIENT FEATURES:

- ❑ Information on various developmental schemes
- ❑ Off-line data updation of data in the software
- ❑ Reports based on various schemes
- ❑ Supports insertion of photographs of works before and after the completion of works

### IMPACT:

- ❑ Provides reports to the government
- ❑ Maintains transparency in the government
- ❑ Helps in corrective action to the government
- ❑ It enables asset register creation for the government
